

Rope Align Block™ Ordering Guide

1. Determine the part number (= required specs) as follows:

Rope Align Block™	Quantity of Ropes	dash	Diameter of Ropes	dash	Rope Pitch (center-to-center)
RAB	—	-	— . — — — —	-	— . — — — —

2. Fill in quantity of above Rope Align Blocks™ required. Qty = _____

Example: RAB4-0.625-1.00 would be a Rope Align Block™ for four (4) hoist ropes that are 5/8" (0.625") in size and with a pitch (spacing) of 1" (1.00").

A *Rope Align Block™* can be provided for any rope quantity, diameter and pitch. Simply fill in the blanks per the table above.
