

Extended Retracta Ladder®

Retractable elevator pit ladder extends 18"
or 24" from wall and retracts to 3¾"

NEW!

- **Extended Retracta Ladder®** extends 18" from rung-to-wall or beam when extended, 3¾" retracted.
- **Extra Extended Retracta Ladder®** extends 24" from rung-to-wall or beam when extended, 3¾" retracted.
- Solves 39" Rule A17.1, 2.2.4.6(c) for maximum distance between ladder and means to unlock pit access door.
- Enhances safety by bringing ladder closer to pit access point, reducing long stretch to step on or off ladder.
- Pull Pin Pole™ custom reach extender available to prevent unsafe reach to operate ladder (see next page).
- Electrical Protective Device (safety switch) field wired in series with elevator stop switch prevents elevator operation when ladder is extended. Positive break N.C. contact, NEMA 4X (IP67) standard.
- Reversible installation. Mount safety switch & pull pin locking assembly on either side.
- Traction Tread™ rungs, slip-resistant & self-cleaning for ideal multi-direction grip and exceptional strength.
- For 4' thru 10' pit depths, 16", 12" & 9" wide rungs are standard.
- Fully A17.1/ CSA B44 compliant.
- Retracta Ladder® is a Registered Trademark and has been awarded US Patent #8944211.
- Assembled with pride in the USA.
